RUNE RIDDLE

In places in Iceland this never leaves but here in Gimli it always leaves in the spring. What is it? Use the rune stones on the pathways to solve this riddle using these clues:

1. Find the south entrance to Viking Park. If you find a troll lurking then you have found the first rune letter. Well done. Now move on quickly before the troll notices you!

2. Now find the west entry pathway to Viking Park. Can you 'see' the next rune Stone somewhere on this path?

3. Now find the only steel Settlement Marker in Viking Park that has 2 first names on the left side instead of 1 last name vertically placed on the Marker. At this location near the middle of the Park you will find the next rune letter you are looking for 'Easily'

Now that you have gathered up the rune stones you can solve the riddle!
Congratulations Viking!
